SUMMARY

I am someone who views my aspirations and goals as challenges to be achieved through hard work. I am highly motivated and capable of working efficiently, managing my time effectively, and being punctual for myself and others. I am a team player, patient, and able to handle pressure. I am always focused on giving my best and taking full responsibility for my work.

EXPERIENCE

Fullstack Web Developer   02/2024 - 04/2024
PT PNM (Persero)

Assigned to the Application Development and IT Division and responsible as a developer for the PCS web based application. It is an application that helps employees manage collateral data along with customer information.

Full-Stack Web Javascript Developer   08/2023 - 03/2024
SYNRGY Academy

Full-Stack Web JavaScript Developer is a bootcamp program organized by Binar Academy X BCA. Through this program, I gained experience in learning fundamental topics in full-stack web development using the PERN Stack (PostgreSQL, Express, React, Node.js). I also had the opportunity to complete an individual project for a car rental website and collaborate remotely with other developers to build a flight booking website as final project.

Laravel Web Development   07/2023 - 08/2023
SanberCode

Laravel Web Development is a training program organized by Sanbercode. Through this program, practical experience is gained in developing a custom website according to specific requirements using the PHP Laravel framework and collaborating on a website project remotely among developers.

Web & Mobile Apps Developer   02/2023 - 06/2023
PT ASDP Indonesia Ferry (Persero)

Assigned to the Quality Control Division and responsible as a developer for the Ferary website-based application. It is an application that can help increase productivity in managing ship and port data.

Independent Study - Pengembang Front-End Web dan React   08/2022 - 01/2023
Dicoding Indonesia

Front-End Web and React Developer is an Independent Study program organized by Dicoding Indonesia X Kampus Merdeka Batch 3. Through this program, I gained experience in learning the fundamentals topics in front-end web development, both with traditional methods and using React. I also had the opportunity to collaborate remotely with other developers to complete a capstone project for a website.

EDUCATION

Informatics Engineering   2020 - 2024
Universitas Lampung - Bachelor of Engineering - BE

Mathematics and Natural Science (MIPA)   2017 - 2020
SMAN 1 Muara Enim

CERTIFICATES

Belajar Menerapkan Bahasa Inggris untuk Staf Administrasi Kantor	09/2022 - Present
